RECEIVED

DEC 29 1999

Dear Ms. Dixon:

1

We write to express our deep concern and strong opposition over the planned storage of nuclear waste at Yucca Mountain.

Aside from the fact that the surrounding area's population is growing at fast pace and will be at direct risk because of the proximity to such storage, there is the risk involved in the delivery of the material on Interstate 15 and Highway 95, both arteries heavily used on a daily basis.

We don't see how the increasing problem of storage of nuclear waste can be solved without posing a threat to humans and nature; all we can say at this moment is that we are deeply disturbed over the threat to our health and the health of our children that this project will pose if it ever gets into realization.

Sincerely,

  
(Ms.) M. Landin  
Bullhead City AZ 86442
